Wireframe Guide for "TruckerTab":

1. User Registration/Login Screen:

- **Layout:** A simple and clean interface with input fields for email and password.
- **Actions:** Buttons for 'Sign Up', 'Login', and 'Forgot Password'.
- **Navigation:** If using OAuth, icons for Google or Facebook sign-in.

2. Dashboard/Main Screen:

- **Overview:** Quick stats showing recent expenses and remaining budget.
- **Navigation:** A bottom navigation bar with tabs for 'Home', 'Add Expense', 'Reports', 'Settings'.
- **CTA:** A prominent 'Add Expense' button.

3. Expense Input Form:

- **Fields:** Inputs for expense amount, category (dropdown menu), date, and notes.
- **Receipt Upload:** An option to attach a receipt image or use the camera to capture it.
- **Submission:** A 'Save' button to add the expense to the list.

4. Receipt Scanning and Storage:

- **Camera Access:** A viewfinder screen for capturing the receipt.
- **Image Preview:** After snapping a photo, show a preview with options to 'Retake' or 'Use Photo'.
- **Storage:** Thumbnails of saved receipts with options to view or delete.

5. Expense Tracking and Categorization:

- **List View:** A scrollable list of expenses with categories and amounts.

- **Filtering:** Options to filter by date range or category.
- **Summary:** A summary section with total expenses and breakdown by category.

6. Report Generation:

- **Selection:** Options to select the type of report and date range.
- **View:** Display a preview of the report.
- **Export:** Buttons to export the report as PDF or CSV.

7. Data Backup and Sync:

- **Status:** Indicators for last sync time and backup status.
- **Manual Trigger:** An option to manually sync data.
- **Settings:** Access to backup preferences and data management.
